To: Whom It May Concern:

Re: KEV Software Inc. (formerly Kimputer Evolutions Inc.)

In an effort to help school districts achieve greater accountability and prevent fraudulent activity, KEV Software ensures that the systems they design also offer great time-savers.

We chose School Banking because their product was the best we could find that was tailored specifically for schools and districts. We were really pleased with how well the (personalized telephone) training sessions worked for our staff.

The founder's passion for improving school office administration processes is evident and their drive for automation comes from many years of school office/administrative experience. It has helped build the company's success, prominence and credibility.

The company has also been very responsive and reactive when I have recommendations for enhancements or require technical support.

If you need any further information, please contact me at (519) 527-0111 ext 227.

Yours truly,

Sandra Hunt,  
Financial Services Manager – Schools,  
Avon-Maitland District School Board
